

# DISTRIBUTION AND ACQUISITION

Follow your facility's process for obtaining a cap for the patient and placing an order for a replacement cap via McKesson or your preferred group purchasing organization. Please contact the appropriate McKesson team based upon your facility type overleaf.

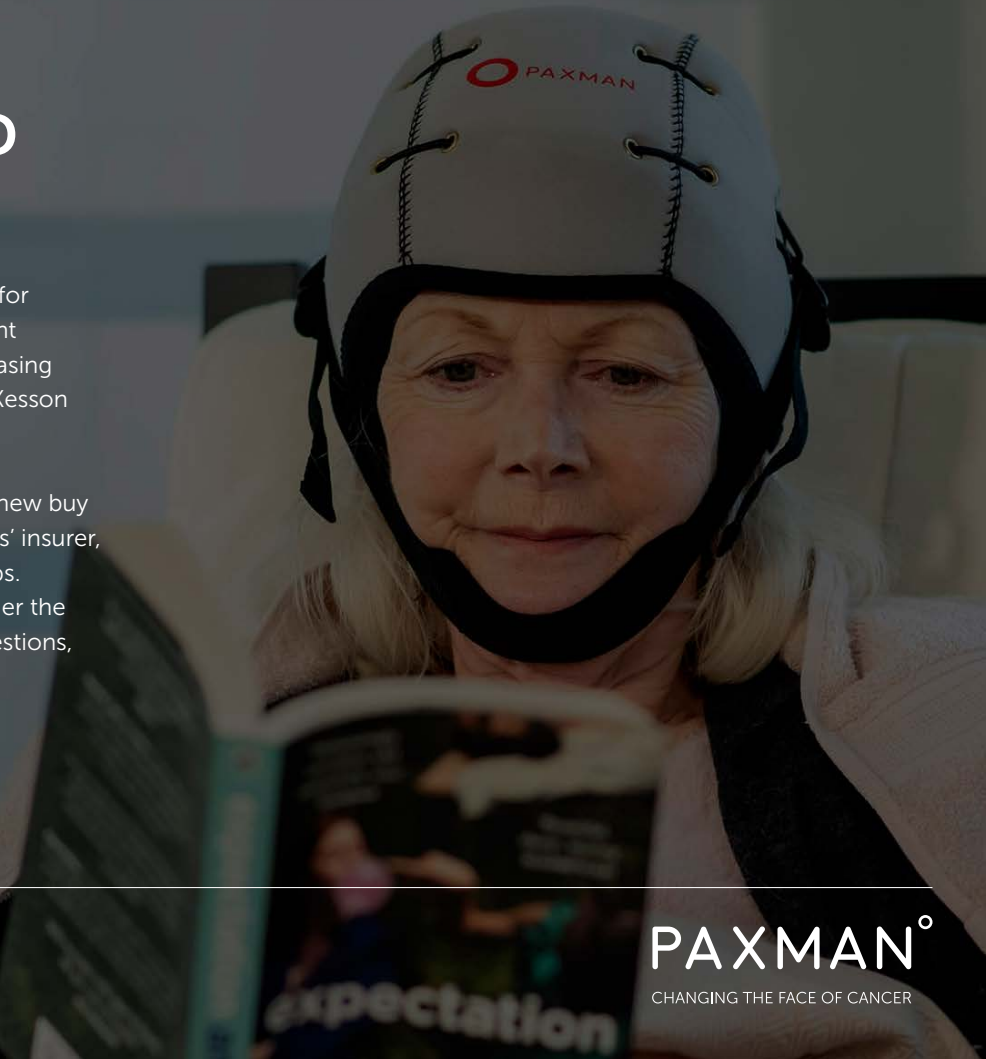

If your facility is contracted with Paxman for the new buy and bill model that allows you to bill your patients' insurer, then your facility should have an inventory of caps. If your facility is not contracted with Paxman under the new model (or if you are unsure) or for other questions, please contact:

**HCP@Paxmanusa.com**  
or phone: **888-572-9626**
