

Procurement Explained: Key Steps & Tips

A guide to the procurement process

Paxman Insurance-Based Billing Model

PAXMAN^o

Maintain a Paxman Cooling Cap Inventory

An account with either Plasma Biologics or Specialty Health is required.

If an existing account is not in place, an onboarding packet will need to be completed. Please allow 4 weeks to process this if your facility is not already contracted with either Plasma Biologics or Specialty Health.

Please reach out to the appropriate party listed below to confirm whether a pre-existing account is in place or if a new account setup is required.

Follow your facility's process for obtaining a cap kit for the patient and placing an order for additional cap kits, by contacting either Plasma Biologics or Specialty Health based on your facility type.
